

Akron Ohio SticKids Workshop

Thursday November 4, 2010

12:00 pm registration; workshop 12:30 – 8pm

Akron Children's Hospital, Sherman Auditorium - One Perkins Square, Akron, OH 44308 ph.330-543-8257

Sponsored by Akron Children's Hospital

Presenter: Meryle Lehn OTR, BOT (c) sipt certified

Canadian Developer of **SticKids** software presents

a full day interactive workshop on **SticKids** – software that supplies user friendly home, school and clinical strategies to support sensory processing and motor challenged children. **SticKids** easily creates sensory diets and functional event visuals, tracking sheets, planners and games from 125 SticKids activity visuals. This **SticKids** workshop is geared for therapists and other professionals. The workshop fee can be with or without product. Come learn sensory and cognitive motor learning strategies to support function and effective therapy delivery!

LEARNING OBJECTIVES:

- Guiding principles & philosophy of **SticKids**
- Overview of sensory processing, sensory integration, & cognitive motor learning frameworks as applied within **SticKids**
- "Walk through" the software - including customization features
- Practical application tips & uses of various planners, trackers, activity cards & games
- Overview of use of visuals from an OT perspective
- Fun demos of therapeutic regulation strategies in **SticKids**
- Learn how to apply regulation approaches using the Critter Meter and the Just Right Kid
- Case studies & breakout sessions for class, clinic & home delivery
- Question time to meet your site needs
