

Why Seek Therapy?

Conflicts in relationships.
Life transitions. Emotional crises.
Adolescent issues. Family conflicts.
Physical illness and disability.
And many more...

**Sometimes life challenges are exciting.
Sometimes they're frightening.**

Often we can benefit from
help and support
as we strive to master them.

Renaissance Therapy Clinic
offers a wide range of counseling,
psychotherapy, neurotherapy
and cognitive training services
for families and individuals.

Goals and objectives are mutually
set by you and your therapist
to assist in enhancing
a sense of vision, choice,
inspiration, and strength.

What Is Neurotherapy?

Neurotherapy is a safe, drug-free,
painless, non-invasive procedure.
Neurofeedback uses weak
radio wave frequencies
to gently reduce or eliminate
irregular brainwave patterns
associated with certain disorders.

**Neurotherapy
is a drug-free treatment
with long-term results
and no side effects.**

Neurotherapy acts as a catalyst to
release and restore the brain's
own capacity for self-regulation.
Once released, the brain has
an amazing capacity to restore
its own clarity and sense of ease.
Individuals recognize an enhanced
ability to initiate activities,
to organize, and to regulate
depression, explosiveness,
and/or anxiety.

Treatment Protocol

Blending evidence-based
cognitive interventions
with neurofeedback,
individuals are empowered
to resolve their mood
and/or anxiety problems
without or with a
reduced amount of medication.

Renaissance Therapy Clinic

is dedicated to facilitating individual growth and empowerment through evidence-based counseling and neurofeedback, blending state-of-the-art technology with a holistic treatment approach. Finding the right professional is of utmost importance. With the wide range of disorders, as well as the uniqueness of symptoms in each person, treatment should be individualized to the specific needs of the patient. Acknowledging the uniqueness and complexity of every person, we implement multiple modalities to design treatment specific to the individual, emphasizing the mind-body connection as a self-healing and self-regulating system.

How Much Does It Cost?

Fees, insurance coverage, and billing will be discussed prior to your first appointment. We participate with numerous insurance plans.

If you do not have health insurance or choose not to use your insurance coverage, we are willing to work with you to create an affordable payment plan.

We strive to make services convenient.

Weekday evening and Saturday hours available.
